

MindBridge — Field Test Intake Data Sheet

Give this sheet to guardians during tablet testing. Enter the values in the app intake screens, then check that customization appears in the strength funnel.

App login (field test)
Tap **Field test sign-in** on the login screen (one tap).
Or email: `mindbridge.pilot.test@gmail.com` · Password: `MindBridge2026!`

Flow: Sign in → Consent (check box) → Intake (3 steps) → Strength funnel (10 layers) → Child play

ISAA score guide (Clinical step — sliders 1 to 5)

Score	Meaning in app
1	Minimal support need in that domain
2	Mild
3	Moderate (default / balanced test)
4	Elevated support need
5	High support need

Parent step — pick exact options from the app

Field	Options in app
Hyper-fixation	Trains & Vehicles · Space & Astronomy · Geometry & Patterns · Animals & Nature · Clocks & Numbers
Sound triggers	High-frequency beeps · Sudden loud chime · Background music loops · Voice-over narration · Applause or cheering
Visual triggers	Rapid flashing · High contrast red/yellow · Parallax scrolling · Floating UI elements · Busy animated backgrounds
Vibration	Prefers haptics · No vibrations · Neutral

What to look for after intake (Environment preview + funnel)

- **Environment preview** (step 3): theme skin, audio mode, instruction style, haptics on/off
- **Strength funnel banner:** “Customized for [child name] (ISAA + parent intake)” with chips (Picture cards, Visual-only hints, etc.)
- **Each theme:** Step 1 = try activity (tap/stack/sort) → Step 2 = rate how fun (slider unlocks after trying)
- **App bar:** Layer X of 10 (use Field test sign-in, not Hospital demo)

Ready-made test profiles (copy into the app)

Profile A — “Picture-first” (low verbal, sensory cautious)

Use to verify: picture cards, no heavy reading, muted sound, calm theme.

Parent personalization	
Child name	Arjun
Age	9
Hyper-fixation	Geometry & Patterns
Sound triggers	☒ Sudden loud chime
Visual triggers	☒ Busy animated backgrounds
Vibration	Neutral
ISAA clinical sliders	
Social Relationship	3
Emotional Responsiveness	3
Speech & Communication	5
Behavior Patterns	3
Sensory Aspects	4
Cognitive Component	2
You should see	Picture cards · Visual-only hints · Completely muted · Calm dark palette · Touch feedback on · “Simple drawings · no faces” chip

Profile B — “Verbal / text-friendly”

Use to verify: text prompts allowed, simple text instructions, sound effects OK.

Parent personalization	
Child name	Meera
Age	10
Hyper-fixation	Clocks & Numbers
Sound triggers	(none checked)
Visual triggers	(none checked)
Vibration	Neutral
ISAA clinical sliders	
Social Relationship	2
Emotional Responsiveness	2
Speech & Communication	2
Behavior Patterns	2
Sensory Aspects	2
Cognitive Component	4
You should see	Text prompt modality · Simple text instructions · Subtle sound effects · Soft pastel · Higher starting difficulty (tier 3)

Profile C — “High sensory + touch”

Use to verify: muted audio, haptics, calm motion, picture/haptic routing.

Parent personalization	
Child name	Kabir
Age	8
Hyper-fixation	Animals & Nature
Sound triggers	☒ High-frequency beeps · ☒ Sudden loud chime
Visual triggers	☒ Rapid flashing · ☒ Floating UI elements
Vibration	Prefers haptics
ISAA clinical sliders	
Social Relationship	4
Emotional Responsiveness	4
Speech & Communication	4
Behavior Patterns	4
Sensory Aspects	5
Cognitive Component	3
You should see	Touch & glow or picture cards · Visual-only hints · Completely muted · Calm dark · Touch feedback on · Calm motion chip

Profile D — “Trains theme”

Use to verify: hyper-fixation changes visual theme (terracotta train skin).

Parent personalization	
Child name	Riya
Age	11
Hyper-fixation	Trains & Vehicles
Sound triggers	☒ Background music loops
Visual triggers	(none)
Vibration	Prefers haptics
ISAA clinical sliders	
All six domains	3 each
You should see	Asset theme terracotta_train on environment preview · Picture cards · Muted (sound trigger checked) · Touch feedback on

Profile E — “Balanced baseline”

Default comparison — space theme, picture guide cards.

Parent personalization	
Child name	Dev
Age	9
Hyper-fixation	Space & Astronomy
Sound / visual triggers	(none)
Vibration	Neutral
ISAA clinical sliders	
All six domains	3 each
You should see	cosmic_space theme · Pictorial guide cards · Ambient binaural soft · Picture cards · Soft pastel palette

Blank form — real child (fill and enter in app)

Guardian completes this on paper first, then types the same values into the tablet.

Consent	
Guardian name (optional note)	
Consent checkbox in app	☐ Done

Parent personalization	
Child's preferred name	
Age (7–12)	
Hyper-fixation (circle one)	Trains · Space · Geometry · Animals · Clocks
Sound triggers (check all that apply)	☐ Beeps ☐ Chime ☐ Music ☐ Voice-over ☐ Applause
Visual triggers (check all)	☐ Flashing ☐ Red/yellow ☐ Parallax ☐ Floating UI ☐ Busy backgrounds
Vibration	☐ Prefers haptics ☐ No vibrations ☐ Neutral

ISAA domain	Score (1–5)
Social Relationship	
Emotional Responsiveness	
Speech & Communication
